

## Atish Kumar

Director and Principal Mining Engineer

Perth Mining Consultants Pty Ltd

Atish is the owner and Principal Consultant at Perth Mining Consultants. He has over 20 years experience in operations and mine planning with reputable companies in Australia and abroad. He has broad experience in open pit and underground ground mines from small scale to large operations in various commodities of Gold, Nickel, Copper, Iron Ore and Diamonds.

Before starting Perth Mining Consultants, Atish was Principal Advisor Mining with Rio Tinto, Technology and Innovation.

PMC exists to provide specialised mining, mine planning and mining studies support to exploration and large mining companies. PMC understands your business. More than ever before, with the falling commodity prices and pressure to reduce costs, there is a greater need to optimise your mine. With significant mine optimisation experience, Perth Mining Consultants can help to devise strategies for maximising your mine plans and reducing costs.
